<p>Through generation-to-generation disciple-making, worship, mentoring, and serving, we intend to pass on to young people a living faith that sticks.</p>	<p>We will implement a multi-faceted outreach and communications strategy to connect in relational ways with people and families, cross-culturally, and through loving service.</p>	<p>As followers of Jesus, our faith shapes and energizes every arena of life including the integration of faith and work, soul care, stewardship, and spiritual maturity. We will teach, model and encourage everyone to surrender every dimension of our lives to the leadership and blessing of Jesus.</p>	<p>The Bible paints an extraordinary picture of people from every tribe and nation coming together as God's forever family. In this valley, there is an increasing multi-cultural presence and we seek to be a church reflecting this beautiful mosaic by initiating new approaches to connecting with people of diverse ethnic, racial, and cultural backgrounds.</p>	<p>We are called to give ourselves away, joyfully loving, serving and blessing people where God has planted us (cities, neighborhoods, workplaces, and relationships). We will seek and implement God's direction for focused ways our church can make a local spiritual impact and we will continue to call each person to GO be the presence of Jesus every day.</p>

*“a church where people enter into a life-transforming relationship with Jesus and one another, discover and utilize their unique gifting to serve and bless others, and make a spiritual impact every day in the places God has planted them”*

## *a flourishing church*
