

## God With You in His Word Reading Plan 2021

### WELCOME

I am so excited you have chosen to read through the Bible this year! I believe with all my heart that God will be with you in His Word as you seek to meet Him each day, asking Him to speak into your life and guide you.

### HOW TO USE THIS PLAN

While this plan will help you read through the entire Bible in one year, I encourage you to *read for depth not for distance*. It is more important that you encounter God and enjoy his Word than powering through each set of readings. For this reason, I have put check boxes and not dates on the plan so that you feel freedom to go at your own pace. What is most important to keep in mind is that God will meet you each day whether you linger on a single paragraph or read three chapters. Please do not let your pace discourage you or make you feel guilty for not going fast enough (or even missing some days). Just work through the plan with your heart open to God. You will read through the Bible in semi-chronological order and it is okay to skim through longer readings that contain genealogies, census information, etc. There is also a Psalm for each day.

I encourage you to read from your Bible so you can underline and make notes for future use. If that is not possible or you are reading on the go, then you can click on any Bible or video reference and the hyperlink will take you to an online Bible or the video.

For suggestions on how to read the Bible and for a list of Bible study helps, download **Reading the Bible For All Its Worth**.

### VIDEOS

This year I have added many new videos placed throughout the plan to help you maximize your understanding of God's Word. The Bible Project has created short, animated videos for every book of the Bible, themes found throughout Scripture, and content on how to read the Bible. I encourage you to watch the video before doing the daily reading as it will help you understand and appreciate the word for that day.

To view additional Bible videos, go to [The Bible Project Videos](#) page.
